
VIRTUAL LEARNING PERIOD MEETING POLICY

Virtual Learning Period Meetings may be allowed on a case-by-case basis with the approval of the Principal. Excel Academy believes that in-person meetings with the ToR, student, and parent/guardian are an excellent way to assess student learning. However, due to recent changes in the use of video conferencing, the school recognizes that virtual meetings are a viable way to assess student learning. For this reason, virtual meetings will be considered for approval, with specific criteria taken into consideration.

The following criteria must be met before virtual meetings may be considered:

1. The Parent/Guardian and Student must follow all policies and procedures regarding school communication, including responding to emails and other school communication within the time frame outlined in the EACS Handbook and Acknowledgement of Responsibilities.
2. The student must show adequate progression through assigned curricula, as determined by the ToR and any support staff.
3. The student and/or parent/guardian must be able to effectively show the ToR a full body of work for the LP through electronic submission of samples, teleconferencing, and/or other means.
4. The student must take all required school assessments.
5. Students must be able to meaningfully engage with the Teacher of Record in a virtual setting for the length of the meeting.
6. Students and parents are expected to turn on cameras during virtual meetings.

*Failure to meet or adhere to the criteria above, may result in the student being denied future virtual learning period meetings.
